Fall Opening Set For Ft. Myers Education Center

USF will begin offering classes this September in its educational center in Ft. Myers, according to USF President Cecil Mackey.

The center, funded by a $305,000 appropriation from the 1974 Florida Legislature, will provide course work leading to various graduate and undergraduate degrees and a wide variety of cancer development courses.

A USF proposal for establishment of educational centers along Florida's lower west coast, developed with staff of the Board of Regents, was prepared in February for legislative action this Spring.

In announcing the September beginning date for course offerings, President Mackey said, "The University eagerly anticipates working with the community to expand its educational services to the people in the Ft. Myers area. The funding of this educational center represents a commitment on the part of the University to ensure that higher education opportunities are available to all citizens along Florida's lower west coast, and I am personally pleased that the Board of Regents and the State Legislature share that commitment."

"The establishment of this facility is a tribute to many legislative and community leaders who have worked so hard for so long to bring this badly needed center to Ft. Myers. We look forward to continuing our excellent working relationship with all of them in the days ahead."

Counties to be served by this center include: Lee, Collier, Charlotte, Glades and Hendry, with a combined population of about 220,000 people.

The University, in conjunction with community officials, is currently looking for interim facilities for classrooms and administrative offices.

Programs offered at the Ft. Myers center will be designed to complement those already offered by the area's junior and community colleges and will not replace USF's existing continuing education credit courses.

The following are the proposed curricula offerings for the Ft. Myers educational center:

- College of Business Administration: complete degree programs leading to both the Bachelor of Arts and Master of Business Administration.
- College of Education: complete undergraduate program (upper level) in elementary education; complete program leading to the Master's degree in educational administration and supervision; a continuation of those graduate and undergraduate education courses required for in-service training of local teachers.
- College of Nursing: a partial program in nursing leading to the Bachelor of Arts degree, to be followed by a complete program, if sufficient student interest and appropriate facilities materialize.

USF Commencement 1974

With the conferring of over 5,000 degrees during USF's 12th commencement exercises last Sunday, USF graduates now number over 25,000.

A standing-room-only crowd of 8,000 attended the ceremonies at Tampa's Curtis Hixon Convention Center and heard Commencement speaker Betty Furness welcome the graduates into the world--"an unwelcoming world--one that for a long moment is out of focus."

"We are still an extravagant people in a culture that prides itself in extravagance, but change is coming," said Ms. Furness, New York television commentator and consumer affairs expert. "The world cannot survive without it."

In her address, Ms. Furness said she thinks the country must not only establish that the common good requires the preservation of the individual, but that individuals must develop an increased sensitivity toward the whole.

"To protect your inner world, I would ask you to respect the outer one," she concluded. "Neither can survive without the proper fusion. We are in your hands." (Cont. on Page 6)

Revised EOP Submitted To HEW

The University's revised Equal Opportunity Program: A Strategy for Ensuring Equal Educational and Employment Opportunity through Affirmative Action, approved June 1 by President Cecil Mackey, has been submitted to the Office for Civil Rights (HEW) in Atlanta.

The detailed document, almost 200 pages in length, was delivered personally by Jim Vickrey, Equal Opportunity Coordinator. It will be available soon on campus in printed form.

A summary of the Program will be approved within a few months -- after an on-site review," Vickrey said. "Many people have put many hours in on the revision of this important document and I believe the OCR reviewers will be impressed with their efforts."

He added, "I want to express my personal appreciation for their special help to Gloria Strange (Personnel Services); Maxine Mackay, Phillip Hamm, Troy Collier and Woody Trice (Special Assistants for Equal Opportunity); the Equal Opportunity and State of Women Committees; the Career Service Senate; and the College of Education Affirmative Action Committee; among others."

**ANNOUNCEMENTS**

*The State Legislature has enacted an amendment to the group health insurance program to define full-time employees as "all full-time employees of all branches or agencies of State government....and employees paid from regular salary appropriations for eight (8) months employment including University personnel on academic contracts." This amendment allows those 9-month faculty members continuing in Quarter I, 1974, to receive the monthly contribution of $9.98 effective July 1, 1974, if summer coverage has been elected. Those faculty members who have requested to continue health insurance coverage during Quarter IV will automatically have their premium adjusted; other faculty members who have not requested continuous coverage may do so immediately by contacting the Payroll Office in ADM 107, or by calling ext. 2711. Those 9-month faculty working on summer supplement will have continuous coverage under the State Health Insurance Program with State contributions effective July 1, 1974, unless coverage is cancelled by the faculty member.

*Effective July 1, prices will be changed in Quick Copy Shops I and II. The effect of these changes will increase prices for short run work and decrease prices for longer jobs. The need for these changes is the dramatic increase in cost of paper, labor, and equipment over the past several months.*

**Instructional Materials Center, EDU 113, will be open during Quarter IV Monday, Thursday, Friday 9 a.m.-5 p.m.; Tuesday, Wednesday 9 a.m.-9 p.m.**

*The U.S. Postal Service is enforcing rules and regulations on customs declaration forms required on foreign mail. Please contact the campus Post-office, ext. 2606, before sending mail, as to the proper form needed. They vary with different types of mail and with different countries. This applies to all mail other than air mail.*

*On Friday, June 14, the Cashier's Office, ADM 131, will close at noon. This is being done to coordinate hours of operation with the hours of operation for Regular Registration in the Gymnasium.*

*Closed for inventory:
University Bookstore and Textbook Center
St. Petersburg Bookstore
Duplicating Services
Quick Copy Shop, ADM
Quick Copy Shop, SOC
Golf Course Pro Shop*

Altamese Myers (phys.,plant) was selected as Custodian of the Quarter.

Gladys S. Kashdin (hum.) is exhibiting 25 paintings, collages and recent drawings from the Everglades series at Le Moyne Art Foundation, Tallahassee, May 26-June 21.

The Human Services Training Program at USF and the Regional Evaluation and Adjustment Center, University of Tennessee, in conjunction with the Florida Division of Retardation, sponsored a workshop on Community and Transitional Based Curriculum for Retarded. The workshop was conducted May 29-31 in Orlando for 30 staff from the Regional Retardation Centers in Florida.

A. J. Lowe (edu.) has been selected to receive the 1974 National Reading Conference Oscar Causey Award for "Outstanding Contributions to College Adult Reading."

G. E. Patterson (edu.) attended the National Curriculum Consortium Trainers Workshop held at Chippewa Falls, Wisc., June 3-7.

Thomas E. Sanders (Eng.) accepted invitation to serve on the Editorial Advisory Board of The American Indian Quarterly."
**USF Property Policy Outlined**

Faculty and staff are reminded that before they may remove University property from the campus, they must fill out an equipment removal form.

Paul Uravič, Director of Public Safety and Security, said the increasing theft and/or loss of properties makes necessary the enforcement of the policy on off-campus use of state property issued by the Comptroller in June of 1972 and included in the Properties Procedure Manual.

The policy states: "When University property is to be removed from campus for some special purpose, a request for 'Off Campus Equipment Use Permit' USF Form No. 6028 is initiated. After it is approved by the appropriate dean or division head, the form will be forwarded to the Vice President for Administration or his designated representative. The request to use University property off campus and the authorization for its use, along with acknowledgement of receipt of the property and certification of its return, are all contained on this form."

**Reading Improvement Class Set**

A course designed to improve reading speed and comprehension, as well as vocabulary, will be held for adults this summer at USF by the Counseling Center for Human Development and the Center for Continuing Education.

The noncredit course, "Effective Reading for Business or Pleasure," meets Tuesday evenings, June 18 through Aug. 13. Fee for the nine-week course is $35.

**Welcome Newcomers**

INTERCOM wishes a sincere "welcome" to the following new employees whose names have been supplied by Personnel Services.

**Hurricane Impact Lecture Set**

The impact of both hurricanes and sewage effluent on Tampa Bay will be discussed by a USF professor who designed a hydrodynamic model of the Bay, at a public lecture on the USF St. Petersburg Campus, June 14.

Dr. Bernard E. Ross will speak at 4 p.m. in Room 223-B, A-Building, at a faculty seminar sponsored by the marine science department. His topic is "A Hydrodynamic Model for Tampa Bay, Including Storm Impact."

Dr. Ross and Dr. Melvin W. Anderson, both engineering professors, designed the model, which they envision as "a new form of hurricane warning system," through more than $130,000 in grants from the Army Corps of Engineers, Environmental Protection Agency and Tampa Bay Regional Planning Council. They first developed the model in 1969 to show where tides carry wastes which are dumped into the Bay. Soon afterward, their project was expanded to show what would happen to the Bay if a hurricane hit.

**LSAT, GRE Prep Courses Offered**

USF is offering summer non-credit courses to help students prepare for taking the Graduate Record Examination (GRE) and the Law School Admission Test (LSAT).

"Development of Math Skills for the GRE and LSAT" will be conducted Wednesdays, June 20 through Aug. 8. "Development of Verbal Comprehension for the LSAT" will be held Mondays and Wednesdays, June 24 through July 22. All courses meet from 7-10 p.m.

All courses are taught by University-approved personnel under the auspices of the Center for Continuing Education and the Counseling Center for Human Development at USF.

**Bondi Elected Terrace Mayor**

Joseph Bondi, associate professor of education, was elected mayor of Temple Terrace last week. Bondi, who joined USF in 1965, had been a councilman in that community.

**USF Construction Update**

The following is a construction update provided by Facilities Planning:

Classroom Bldg. "A"--Progress was not curtailed by the recent strike. The job is experiencing problems, however, and it is anticipated that a beneficial occupancy date cannot be accomplished prior to Sept. 1.

Medical Center Phase I--This project was affected by the strike and partial occupancy is expected by July 1.

Medical Center Site Work Phase I--Bids were received and contract documents approved by the Governor and the Cabinet. Since this project is funded partially by the Federal Government, approval must be granted by the appropriate agency and this has not yet been accomplished.

Medical Center Phase II--Construction work was curtailed by the strike, but a good portion of the structural steel for the Library and Clinical Science Bldg. was erected. Scheduled completion date: Aug. 1975.

Library--Construction was limited this month. The scheduled completion date of Aug. 1975 remains.
