## **Library Resources in Education**

### **Poynter Library, University of South Florida St. Petersburg**

Nelson Poynter Memorial Library was opened in 1996 to serve the needs of the USF SP community. The three-story, 81,000 square feet building, offers inviting views of Bayboro Harbor, 21 rooms for group study, and approximately 40 networked computers for student research and study. The library's print collection now exceeds 215,000 volumes. Extensive media collections, juvenile fiction and non-fiction, and an instructional materials center supplement the monograph and journals collections. In addition to print and media items, Poynter Library participates in the University of South Florida Libraries electronic library, providing exceptional resources to students and researchers from library computers or homes or offices. Among the resources of particular interest to the College of Education are the following:

- The Library of Congress "L" classification for education subjects totals 46, 239 volumes, 18,589 purchased from 1990 to date. Of this number, 1,863 are serials. (Appendix A, p. 3) includes more detailed information.)
- 2005/06 expenditures for titles in education totaled \$13,629; 365 volumes were purchased.
- Poynter Library's media center houses a collection of 22,093 juvenile books, many of them obtained through an automatic purchase plan that provides award-winning children's books each year. The media center juvenile collection has tables and chairs for 44, providing comfortable space for class meetings focused on literature for children.
- Efficient interlibrary loan services supplement Poynter Library collections by providing materials from within the USF Library system of over 1,000,000 volumes or from libraries in Florida or worldwide.
- The media center also contains an instructional materials center that provides materials to support student teaching interns in their classrooms, now consisting of 777 items.
- The Poynter Library media collection offers 80 video tapes and DVDs in the L classification. Education faculty members are encouraged to suggest additions to enrich the study or classroom experience of their students at any time.
- Media collection development is coordinated by Jerry Notaro, a former school librarian and certified teacher.
- The USF Libraries offer 375 full-text electronic journals. Electronic formats have become the preferred method of providing journal subscriptions. Faculty members are encouraged to make suggestions of additional titles when new

subscriptions are considered each year. (Detailed information about electronic journal titles may be found in Appendix B, p.5)

- Electronic resources also include 1800 electronic books, a wide array of reference materials, and electronic databases including ERIC, Wilson Education Full-Text, and Mental Measurements Yearbook. (See Appendix C, p.14.) Additional electronic resources in subjects such as psychology, sociology, and social work are also available.
- Approximately 1800 streaming video titles developed and licensed by the Annenberg Foundation are available to provide professional development support to K-12 teachers.
- A reference and instruction librarian, currently Kaya Townsend, is assigned to support specialized collection development and library instruction for the College of Education. Faculty members are encouraged to contact their college liaison at any time to request purchases of monographs, media, instructional materials, or new electronic resources. The liaison will also provide specialized instructional sessions in the library's computer lab or develop bibliographies or other handouts to support a particular class or major.
- College of Education faculty members may place materials for class reserves either through traditional or electronic course reserve services.
