Reaccreditation Committee to Visit USF

A team of 25 top-flight educators representing the Southern Association of Colleges and Schools will visit the University of South Florida Apr. 29-May 2 to examine all facets of the University's programs for a 10-year anniversary reaccreditation examination.

Dr. Walter Doug Smith, president of Francis Marion College, Florence, S.C., will serve as chairman of the group. Other members of the reaccreditation committee are from colleges and universities throughout the South.

While the committee is on campus, all members of the University community are asked to show them every courtesy as they seek to determine the status of the University programs.

A 10-year self-study of USF, which has been compiled under the leadership of Dr. Russell Cooper, will be a key tool for the committee's evaluation. Copies of the study are available for examination in all college deans' offices, in the special collections division of the Library, in dormitories and other strategic locations on the campus.

The reaccreditation committee will report its findings about USF to the Southern Association, which is responsible for the University's continuing accreditation.

Every university has the opportunity of a visiting team evaluation every 10 years.

Beatie Named Director of Procurement

The promotion of Edward G. Beatie as USF's Director of Procurement was announced this week by Ken Thompson, Assistant Vice President for Administrative Affairs.

Beatie, who has been employed at USF for the past five years, has served as assistant director of procurement since 1970.

Thompson, to whom Beatie will report, stated: "I am pleased that Ed Beatie has agreed to become Director of Procurement. Mr. Beatie has rendered valuable service to the University in the five years he has been here and I look forward to working closely with him in his new role."

Beatie has a bachelor's degree in science, is a member of the American Chemical Society and serves as professional development chairman of the Florida West Coast Purchasing Management Association.

USF will celebrate its fourth annual International Week Apr. 29-May 5.

Foreign films, a gourmet dinner and an international fashion show are among the scheduled events which, excepting the dinner, are free and open to the public.

For further information on times and dates of events, call Mildred Singletary, ext. 2615.

APPROVAL RECEIVED FOR ADDITIONAL LIBRARY FLOORS

Authorization to proceed immediately with plans for adding two additional floors to the construction of the new library now being built at USF has been received by President Cecil Mackey from the Chancellor and the Board of Regents of the State University System (SUS).

Adding the two floors now as part of current construction, rather than at some future date as planned, will save the SUS approximately $650,000, according to Dr. Mackey. He stated that the $4,834 million bid from J.A. Jones Construction Co. of Tampa, general contractor for the present work on the four-story library, was approximately $1,450 million less than the amount allocated by the Regents. This cost savings will be utilized in adding the two floors at an estimated cost of $1.4 million.

In making the announcement, Dr. Mackey said, "This authorization recognizes the importance of the Library to the University, permitting us to meet the research and study needs of faculty and students for decades to come. The Library is the heart of the University and I am pleased that its significance has been recognized in this tangible act of support--and all at substantial savings to the State."

The additional space will be used primarily for seating and books. It will increase the capacity of the new library from approximately 700,000 to one million volumes. USF's present library is at maximum capacity with close to 375,000 volumes.

Albert C. Harlley, vice president for finance and planning, explained that the new library is expected to serve the needs of the University into the 1980's.

If Phase I had continued and been completed in 1974 as planned, the construction of the additional two floors in Phase II would have started less than one year after Phase I was completed in order to meet University needs. Completing all six floors now will not only save money, but will also prevent the disruption of library services that would be caused by additional construction later. The foundation of the present construction was planned to handle the additional floors.

V. Pres. Riggs will be the guest on "ACCESS," USF's (89.7) listener call-in program, Wed., May 2, 6:30 p.m. To ask a question, call 974-2215.
**Psychologists to Lecture**

Dr. Harry F. Harlow, "the father of the cloth mother" of psychological research fame, and Dr. George W. Albee, noted clinical psychologist and author, will lecture at USF May 7 and 8.

The two men, both past presidents of the American Psychological Association, will be in Tampa to conduct workshops at the May 4-5 meeting of the Florida Psychological Association and will also speak at USF under the sponsorship of the psychology department. The USF Chapter of Sigma Xi, the national scientific society, is jointly sponsoring Dr. Harlow's talk.

Dr. Albee will lecture at 2 p.m. May 7 in the Business Auditorium on "The Uncertain Future of American Psychology." Dr. Harlow's talk on "Cause and Cure of Anaclitic Depression in Monkeys" will be at 4 p.m. in Room 141 of the Physics Building on May 8.

Both lectures are open to the public.

**Performance of Children's Play**

"The Hide-and-Seek Odyssey of Madeline Gimple," a children's play by Frank Gagliano, will be performed May 5 at 10:30 a.m ., 1 p.m., and 3 p.m. in the University Theatre (TAT) at USF.

The play will be presented to sixth-graders in the Hillsborough County school system during a tour which begins Apr. 10 and continues through the end of May.

Costumes, sets and puppets were designed by Russell Whaley of the theatre department faculty. Original music is by student Sally Shim-Laurel.

Group rate tickets at 50c per person for groups of 20 or more are now on sale at the USF Theatre Box Office (974-2323). Orders and payment for group rate tickets must be received Apr. 27. Individual tickets at 75c go on sale Apr. 27 at the Theatre Box Office.

**Speech Problems Seminar**

The speech pathology and audiology department of USF is conducting a seminar on stuttering problems every Monday at 3:30 p.m. in University Apt. 35, in the 4200 block of Fletcher Ave.

The seminar is open to professionals in the medical and psychological areas, speech therapists, and persons with speech problems.

Dr. Anthony Zener and Dr. K. Dale Gronhovd will conduct the free seminar, which will be in forum style.

**Printers' Art Exhibition**

The exhibition, the first of its kind at USF, is being staged by the Florida Center for the Arts.

A highlight of the exhibition is 38 "Bon a tirers" (perfect impressions of the image which the artist wishes to produce) loaned by the current USF Master Printers Charles Ringness, Paul Clinton and Julio Juristo.

Other items on display include a series of photographs showing the process of fine arts printmaking and tools and supplies used in lithography workshops.

Gallery hours for the free exhibition are 10 a.m. - 1 p.m. and 2-5 p.m. Mondays through Saturdays, and 1-5 p.m. on Sundays.

---

**Choral Works About Wine**

Dr. Michael Rose, assistant professor of humanities, will conduct the debut performance of the University Camerata on May 3 at 8:30 p.m. at USF's Language-Literature Auditorium (LAN 103). Admission is free.

The unaccompanied chorus will present a program of choral works about wine, women and death by composers Thomas Morley, Monteverdi, Stravinsky and Purcell.
