Reed a sked the budgetary issues Jan. will lead a. special forum to address USF professors and graduate assistants. is tradition time, and building maintenance will suffer. to cut $25.3 million for 1991-92. finance will suffer. round of cuts, 1990-91, was accompanied by a warning to expect another 5 percent cut for 1991-92. AS a result, Reed must reduce summer school classes, acquisition long struggle with the LCME when the accrediting agency removed its threat to put the college on probation. This issue of Inside USF includes a summary of interactions with the LCME.

For the second time in the fall 1990 semester, USF joined other state universities and agencies in the budget cutting process. The latest round of cuts, announced Dec. 7, were a result of further decline in state revenues during an economic crunch across the country. The State University System (SUS) was asked to cut $25.3 million, with USF to bear $4.3 million of the burden. The request from the office of Gove­nor-elect Lawton Chiles was accompanied by a warning to expect another 5 percent cut for 1991-92. AS a result, Reed must reduce summer school classes, acquisition of library books and periodicals, student advisers, administrative and clerical workers, and part-time professors and graduate assistants. Longer lines can be expected at registration time, and building maintenance will suffer. It is evident that these reduc­tions will cause substantial damage to the lives of our students, our faculty and staff,” said USF President Francis T. Borkowski in a recent letter to Charles Reed, SUS Chancellor. "Some of it may well be irreparable." Reed asked the universities to consider cutting programs in 1991-92 that are not part of the "core mission" of state higher education. The Florida Mental Health Institute is in danger, along with an indigent care program at the University of Florida. Reed said these measures may be the only alternative to cutting under­graduate teaching programs. Strong opposition to taking such measures was reported from Borkowski and USF President John Lombardi. Borkowski will address these budgetary issues at a special forum Jan. 10. All faculty and staff are invited to attend.

Newly-elected Governor Lawton Chiles selected a USF education professor, "a school teacher at heart," to run the lottery—his first gubernatorial appointment and a radical career change for her. Gov. Chiles said he wants Marcia Mann, 46, to be a voice for his administration to ensure Floridians that more lottery dollars will go for education. Chiles said he real­izes that lottery sales may decline under his administration, but he said he wants to place the emphasis on the net profit that goes to education.

Mann, who had been an assis­tant dean for the College of Education at USF, replaces Rebecca Paul, who had been the highest paid state employee in Florida. Mann will be paid $98,000-$100,000 more than she was as assistant dean, and $10,000 less than Paul reportedly earned annually. Gov. Chiles state salary is $130,000.

Mann’s previous experience with the lottery included, "winning $95 once and losing a lot more," but in announcing her as his choice, the new governor said, "She’s going to be the insurance for the parents and the children of our state. There will be someone standing guard to protect and deliver the funds from our lottery to our schools." Borkowski to conduct Florida Orchestra

USF President Francis T. Borkowski will be guest conductor of the Florida Orchestra for two performances, 11 a.m. Jan. 17 at the Bayfront Center's Mahaffey Theatre, and 7 p.m. Jan. 18 at the Tampa Bay Performing Arts Center. Featured music will include suites from "Carmen," "The Nutcracker," Händel's "Water Music," and the Wedding March from "A Midsummer Night's Dream."

Borkowski is a former conductor by training. He earned his bachelor's degree in music at Oberlin College, in Ohio, his master's in conducting at Indiana University and his doctorate in music from West Virginia University. He has conducted the Ohio University Symphony Orchestra and established and conducted the West Virginia Wind Symphony. He was principal clarinetist for the Jacksonville Symphony and was a clarinetist for the Indianapolis Symphony and the Indianapolis Woodwind Quintet.

The Jan. 17 performance is billed as a "Coffee Concert." The morning concert will be preceded by coffee and pastries at 10:30 a.m. in the lobby of the Mahaffey Theatre.

Audio Visual Department to deliver both VHS videotapes and the video equipment to and from the classroom. Film & Video Distribution can also act as a liaison between USF faculty and off-campus film/video companies.

The separate preview facilities are also available in the department. One preview room is specifically for 16mm film viewing, while the other is designed for the viewing of 1/2-inch VHS videotapes.

Sponsored Research Notes

The following calendar, compiled by the American Association of State Colleges and Universities (AASCU), Office of Federal Programs (OEP), includes deadlines date for grants for the first half of March 1991. Deadlines with an asterisk (*) are tentative. The information is organized by area of interest. For more information, please contact Amos Webster or Merilyn DeCracker, Division of Sponsored Research, PAF 126, ext. 2877.

ARTS/HUMANITIES/INTERNATIONAL

March 1 American Council of Learned Societies
Grants for East European Studies
American Numismatic Society
Francis M. Schwartz Fellowship
Summer Study Grants and Graduate Fellowship
Council on Library Resources
Folger Shakespeare Library
Folger Library Short-Term Fellowships
Hoover Presidential Library Association Fellowship and Grants Program
Japan-United States Friendship Commission
Lee-United States Activities Awards
Kennan Institute for Advanced Russian Studies
Short-Term Grants in Russian Studies
National Endowment for the Arts
Folk Arts Program
