Issue: Material and Supply Fees Effective Fall 2015

Proposed action: Approve reductions and/or deletion of material and supply fees for courses effective fall 2015

Executive Summary:

In accordance with Florida Statute 1009.24 and the authority granted to the USF Board of Trustees, recommendations are presented with regard to amending the course fees charged for consumption of materials and supplies in instructional activities.

Each year, USFSP colleges review all courses and existing material and supply fees to determine whether fee revisions, additions, or eliminations are necessary. A comprehensive and detailed approach is undertaken to assess the material and supply fee for classes requiring consumables for instructional activities. The approach is designed to ensure that the charge offsets or recovers only the cost of instructional materials and supplies consumed for the classes.

Financial Impact:

- 2 eliminated fees affecting an estimated 365 students
- These changes will result in the estimated total net decrease in annual fee revenue of approximately $9,500

Strategic Goal(s) Item Supports: Goal 6- Sustainable Funding
Supporting Documentation: List of Material and Supply Fee Revisions
