• Unaffiliated Faculty request that the following issues be noted in council minutes and be considered in the future when there is restructuring, based on an email sent to the Faculty Council Chair the following points were brought up but not discussed by the council.
  - Ensure a properly elected representative of the unaffiliated faculty to Council
- Ensure that Annual evaluation of the unaffiliated faculty is conducted by a system that is the same and fair to the faculty with reviews at the department level by an elected committee and department chair who is elected by the faculty. Dear Chairs,

If you have a chance I encourage you to check out www.thefloridachannel.org and watch the taped session from this morning's 1/17/18 House Post-Secondary Education Subcommittee - fast forward to 26minutes 25 seconds. Here you will hear a quick summary of the reasoning behind the proposed legislation to eliminate separate accreditation for USFSP and USFSP and become one university with "satellite campus" locations.

It is anyone's guess as to whether the Bill passes and is signed into law by the Governor. I am aware that you are getting pelted with questions and concerns by faculty to which you may have few answers. Martin will be holding back to back 30 minute town hall meetings this Friday starting at 3:30pm in DAV 130. I also heard that President Genshaft is scheduled to be on campus at some point Friday to meet with Martin and field some questions. I don't have any further details at this time.

In the midst of this uncertainty please know that we are pressing ahead on our agenda and plans to hire faculty and propose new degree and certificate programs and continue to serve our students with a world-class educational experience that they have come to expect. There has been no talk and there is no intention of letting anyone go. Faculty are employed under a collective bargaining agreement, and I was reminded today by Olufunke that the terms of those agreement remain in effect irrespective of organizational changes.

If the legislation passes then representatives across the USF system will work on a plan and submit a reorganization plan to the USF Board of Trustees for approval.

As Martin wrote to me today, "Basically, we continue to move forward anticipating that we will continue to grow and needs will grow as well. We will deliver programs here in the future as we have been in the past, and we will add more as we grow. We will have academic programs here and those will expand to include doctoral programs...just a matter of time. If colleges change as a result of the legislation, that will simply be a structural change based on location needs...faculty are brought into an existing department/program and the tenure/promotion process in those departments and programs is outlined in the CBA and the CBA still applies to those decisions.

That is about all I know about this fast moving story.

We will have a chance to discuss further Friday morning at the CAS Faculty Council meeting.

If you have any questions between now and then, please reach out.

Thank you,
Frank
