**USF Hosts UNESCO**

The first UNESCO conference to ever be held in the United States will be held at USF Oct. 29-31.

More than 50 leaders of artistic and creative life in America and Europe are expected at the event. They will begin a long-term UNESCO inquiry into cultural innovations in technological and post-industrial societies.

The conference is hosted by the USF Leisure Studies Program in cooperation with UNESCO (United Nations Educational, Scientific and Cultural Organization) and the U.S. National Commission for UNESCO.

According to Dr. Max Kaplan, chairman of leisure studies and conference director, the conference will be a planning session for the first two years of the UNESCO inquiry. These first two years are expected to concentrate on the significance of current artistic movements in the U.S. Similar studies are envisioned in five other countries.

A panel discussion on the conference theme and a program on USF's planned Picasso sculpture, "Bust of a Woman," will be at 8:30 p.m. Oct. 29 in the Language-Literature Auditorium and is open to the public. It will be aired over WUSF-FM Radio beginning at the same time.

Three general sessions from 2-5 p.m. Oct. 28 and 30 and from 9 a.m.-noon Oct. 31 in the UC Ballroom are also open to the public.

**Justice Adkins To Lecture**

State Supreme Court Justice James C. Adkins will lecture and answer questions about the Judicial branch of Florida government at USF on Oct. 31.

Adkins was appointed to the Supreme Court of Florida in 1969, after serving five years as judge of the Eighth Judicial Circuit Court.

The lecture, which is free, is open to the public and will be held from 2-3 p.m. in the University Theatre. A reception will follow.

**ACTION Rep To Visit USF**

A recruiter for ACTION, the federal government’s agency for voluntary services, will be on campus next week soliciting for the Peace Corps and VISTA.

The recruiter will be in the University Center Oct. 29 and 30 from 9 a.m.-5 p.m. and in the Career Planning and Placement Center on Oct. 31, Nov. 1 and 2 from 9 a.m.-5 p.m.

**Big Game For Soccer Team**

The undefeated Golden Brahmans soccer team will host the defending NCAA national champions St. Louis University Billikins Saturday at 2 p.m., in the top soccer game of the season at USF. The Brahmans, rated third in the South, are 7-0 for the season. The Billikins, ranked second in the nation last week, are 6-1-2.

**SUS Budget Reviewed**

Board of Regents Chancellor Robert B. Hautz yesterday reviewed for the USF community his recommendations for $343.6 million to operate the State University System in 1974-75.

The recommendations, $7.4 million less than requested by the universities, were explained at a morning meeting with deans and departmental chairman and an open afternoon session for faculty, students and other interested persons.

The Chancellor noted that the universities sought $275.7 million in General Revenue funds, 23.8% more than 1974-75 appropriations. Following extensive hearings and review this summer, he said the Regents Finance Committee recommended a $269.3 million General Revenue budget which is 20.6% above 1973-74.

"When all funds are included," he said, "the recommendation amounts to an increase of 16.69% distributed as follows: 7% for inflation and salary increases; 5.56% to serve 4.5% more full-time students, and 4.13% to make needed improvements.

Chancellor Hautz reviewed the entire budgetary process during his slide presentation. He also reported results of the Board of Regents latest study which shows enrollment estimates for the state universities over the next decade lower than previously projected.

**Dredging Study Funded**

A state grant of nearly a quarter million dollars was given to USF to study the environmental impact of shell dredging on Tampa Bay.

The $225,016 grant, from the Trustees of the Internal Improvement Trust Fund, State of Florida, was awarded to professors Dr. Joseph L. Simon of biology and Dr. Larry J. Doyle of marine science. It will cover two and one-half years of research, from Aug. 9, 1973 to Feb. 29, 1976. It is the first time anyone has undertaken a project to determine the effects of shell dredging in Tampa Bay.

The grant funds will be used to purchase equipment and provide salaries for the professors, a geological technician and four graduate and three undergraduate research assistants. USF has provided matching funds of $15,000 for the equipment.

**Equal Opportunity Com. Named**

The following persons have been asked by President Mackey to serve on the USF Equal Opportunity Committee which advises the President on equal opportunity matters (including the USF Affirmative Action Plan) and serves as a mediating body, upon request, to assist in the resolution of specific equal opportunity complaints unresolved at the vice presidential level.

Committee members include: Margie Metz, faculty, Afro-American Studies; Mary Wade Perris, staff, St. Pete Campus Library; C.H. Robinson, staff, University Studies; Ken Stanton, Educational Resources; Gloria Strange, staff, Personnel Services.
FACULTY SENATE INFO

The USF Faculty Senate passed the following two propositions on Oct. 10. Because they require a change in the Faculty Senate Charter, all faculty will have the opportunity to vote on them.

Ballots, for the purpose of voting, will be distributed via campus mail and should be received by faculty no later than Monday, Oct. 29.

Because the propositions are paraphrased on the ballot, INTERCOM is running both with the additions and/or corrections.

**PROPOSITION 1**

**PROPOSAL:** To allow lecturers to vote in Faculty Senate elections

**MOTION:** To amend the charter of the Faculty Senate by adding the words *in italics* and deleting the underlined words.

**Article I. General Faculty**

A. Membership

Membership in the General Faculty of the University of South Florida shall consist of all full-time members of the Teaching and Research Faculty with the rank of Instructor, Assistant Professor, Associate Professor, or Professor or the title of Lecturer. The General Faculty acts through the Faculty Senate as its elected representative body.

**PROPOSITION 2**

**PROPOSAL:** To consider the St. Petersburg Campus to be a "precinct" just as the colleges are now "precincts," and to allot representation to the campus based on population, but to deny to faculty of the campus the right to participate in elections in the academic colleges.

United Fund Reaches 70% Mark

USF's Tampa United Fund Campaign has reached 70 percent of its $19,500 goal, according to figures released at the second reporting date, Oct. 17.

USF reported contributions totaling $13,599.62 to the Tampa United Fund committee last week. The USF Medical Center was the first division to surpass its established goal. They achieved 117 percent of their goal of 1500.

The final reporting date is Oct. 31 at 5 p.m.

The following are TUF totals as of the Oct. 17 reporting date:
