LIBRARIANS MEETING
Tuesday, April 18, 2001, @ 2:30 p.m.
Library Conference Room

FLA Reports

Anita Lindsay attended a session of the Information Literacy Group. She reported on the shift from print and microform to the Internet and web-based resources. The Group discussed standards to be developed, ways to reach the learning community and difficulties encountered in efforts to involve faculty. Anita spoke of the possibility of having a speaker come to the Library to talk on promoting BI to counter the general malaise on the part of faculty.

Kathy distributed the results of a survey on library instruction. A discussion followed.

Signe and Tina reported on the future merging of FCLA and CCLC, increasing the number of libraries in the system from 10 to 38, a combination of the state's universities and community colleges. Implementation will be difficult, with many potential problems – from finding an effective vendor to reconciling the many different functions involved.

Tina mentioned that Tampa campus has begun a mentoring program between librarians and library science students on main campus. Deb has been mentoring here at our Library for some time.

Announcements from Kathy

Kathy made available to all:
1. SACs application information for our campus's separate accreditation.
2. Flow chart for LAG group
3. Serials/Periodicals list. A discussion followed of what to purchase. Most on the list were selected.

Kathy received word that University Counsel decided that Carl is no longer able to work for us until his legal status is resolved. Jerry has spoken with him, and Carl will be in to return all keys assigned to him.

Kathy will attend Student Government meeting following this one to respond to student complaints that the Library does not allow personal computer usage. These complaints come mostly on Sundays, when the Computer Lab is closed. Kathy will inform them that the Library is unable to change its policy, and that students should appeal to the Computer Lab to extend its hours, now that it has additional staffing.

Announcements from Jerry

The selection has been narrowed to four finalists, who will be invited to the university for interviews. Each set of interviews will take 2 days and will involve all three campuses.

Because of a problem concerning the use of the ID software for more than one machine, AV will not be able to continue its usage of two printers to assist with the making of IDs until another computer is purchased. Correcting the problem will be costly.

Announcements from Berrie
Berrie announced that the new server, recently named "Poe," is handling all back-up tapes for the Library, and that the maintenance agreement on the UNIX server is now longer necessary.

To do: (cumulated list)

1. Annual Self-Reviews: All submitted; need final processing.
2. Circulation policy list for community patron categories: **JJ**
3. Rush catalog request link on services page: Form available, needs fine-tuning: **JJ and Signe**
4. Ethernet access in study rooms: **Berrie**
5. OCO requests: **Submit by 5/15**
6. Continue working on copier issue. **Kathy**
