Culture Transition Team seeks input

USF's Culture Transition Team recently sent a Transition Report to all faculty and staff members with draft versions of the USF Vision Statement and the USF Statement of Values. The report asked for recommendations on the values and vision statements.

Faculty and staff are invited to:
1. Send a letter or memo to the Culture Team at ADM 226.
2. Call the Vision and Values hotline at 813-974-3109.
3. Send an E-mail to VISION.

The team would like to receive all responses by mid-March. A committee will review the recommendations and present them to President Betty Castor.

Library Science to continue in Broward

President Betty Castor has decided to continue USF's Library and Information Science program in Broward County. The program, which has obtained master's degrees since 1978, was scheduled to end this semester.

"If we continue to focus on our specialty in public libraries, it seems to me that we have an excellent opportunity to capitalize on our longstanding partnership with the Broward County libraries, and to shape a program with a strong Hispanic emphasis," Castor wrote in a letter sent to State University System Chancellor Charles Reed.

Castor has also asked that an evaluation and needs assessment of the program be completed within two years.
Faculty/Staff Notes

Elections and Appointments

Samir N. Banoo, Public Health, was appointed as a member of the Association of Schools of Public Health in the European Region. He was also elected as chairman of the International Health Section of the American Public Health Association last October, and as a member of its governing council for the years 1993-94.

Richard Darling, Mathematics, has been appointed by the National Research Council as a Senior Research Associate at the Hurricane Research Division of AOML/NOAA in Miami, from February to August.

Manjikjer Gunaratne, Civil Engineering and Mechanics, was a member of the National Science Foundation, Directorate of Engineering Individual Investigator Awards (BIA) charter review panel, on Feb. 3-4, in Arlington, VA.

Barry Clements, Athletics, has been named "Athletic Trainer of the Year" for the state of Florida in 1993.

Outstanding staffers

Interim Vice President for Student Affairs

Barbara Sherman, left, poses with Carmen Sims.

Provost Gerry Meisels, left, hands awards to Nita Desai and Mary Lou Hirschman of Academic Affairs.

Barry Clements

Barry Clements, Athletics, has been named "Athletic Trainer of the Year" for the state of Florida in 1993.

Juel Smith

Juel Smith, Institute on Black Life, went to a meeting in which post-segregated South Africa was addressed, in January in Scottsdale, AZ. The Post-Apartheid Corporate/Responsibility Roundtable made recommendations that will become the foundation for all American companies to consider as they invest in South Africa.

Grants and Awards

S. East Bedell, Marine Science, USF St. Petersburg, received the 1993 USPF Outstanding Service award and was re-elected to serve on the USPF Senate.

John T. Mazolla, Sun Dome, was awarded the designation of Certified Facilities Executive by the International Association of Auditorium Managers Certification Board.

Nancy McIntosh, Management, USF St. Petersburg, received a $7,000 Research and Creative Scholarship award from the Regents' Council for her project, "Alternative Organization: Patterns of Evolution and Success."

Jacob Neusner, Religious Studies, USF St. Petersburg, received a medal from the Cardinal of Milan for his lectures at the International Meetings of People and Religious conference in Milan last September.

Kathleen Sherman, Pharmacology and Therapeutics, received a $37,000, one-year grant from Eisa Company, Ltd. to study Vanadyl Acetate in cholelithiasis as a Measure of E2020 Pharmacodynamics: During Chronic Oral Administration to Dementia Patients.

Presentations

Samir N. Banoo, Public Health, presented "Current Health Care Reforms: Comparing the U.S. to Five Industrial Countries," during the Florida Health Care Campaign in January; "Health Care Reform in the Eastern and Central European Countries: Learning by Doing and Learning from Others," during the annual meeting of the Association of Schools of Public Health in the European Region in Bielefeld, Germany last December; "Primary Health Care: The Solution for Industrial Countries" and "Managing Quality in Primary Health Care" to the First International Conference on Primary Care in Bahrain last November.

Banoo also presented "Reshaping Schools of Public Health in Eastern Europe" at the American Public Health Association's annual meeting in San Francisco last October; and "Quality of Health Care in Eastern and Central Europe: A New Approach Towards Total Quality Management" at the Third European Patrolling Repairman Conference in Orlando on Feb. 8.

Publications

Anthony P. Andrews, Anthropology, New College, with T. Gallareta Negrón and R. Cobos Palmas, published "Reconocimiento arqueológico de la península de Mauá: Quintana Roo, Mexico" in a recent issue of the Boletín de la Escuela de Ciencias Arqueológicas de la Universidad de Yucatán.

Guillermo Cintrón

Dr. Guillermo Cintrón, Dr. David L. Vesely, Amy T. Giordano and Dr. Mark W. Weston, Internal Medicine, published "Normalization of Circulating Atrial Natriuretic Peptides in Cardiac Transplant Recipients" in the January issue of the American Heart Journal.
