Mackey Directs Registration Review

College deans and the Office of Academic Planning and Analysis (OAPA) this week began a review of USF registrations and budget data.

President Cecil Mackey informed Chancellor Robert Mautz in a letter last Friday that he took the actions "in the light of issues raised at (a) meeting of the House Appropriations Committee which questioned activities at Florida State.

Pres. Mackey told Chancellor Mautz that "absolute integrity of the budget process is essential and that manipulations of enrollment data or any other data for budget purposes cannot be tolerated."

Following a special meeting of the deans, Pres. Mackey directed the following actions be initiated immediately:

- Each College Dean will undertake an examination of the Quarter III registration record of each graduate student enrolled in his College. In each instance where a graduate student is enrolled in a variable credit course for independent study, supervised teaching or directed research, the Dean will determine with the faculty member assigned the responsibility of supervising the individual student's work the nature of the student's assigned program for the quarter, the nature and extent of the supervision involved, the evaluation process to be used in assessing the student's work and the basis for grading. The results of this case-by-case analysis will be reported to the Office of Academic Affairs and to me.

Pres. Mackey reviewed his actions at a special meeting Tuesday morning at 7 o'clock with some 200 key USF faculty, staff and students. The group included the deans, department chairpersons, the Faculty Senate, members of academic councils, the president of the student body and chairpersons of the student councils of each of the colleges.

- The OAPA will carry out a University-wide statistical analysis of undergraduate registrations for Quarter III in these same areas to determine the extent of such registrations. If this analysis indicates that a case-by-case review at the college level is warranted, that will be undertaken promptly in the Deans.

- The Deans will initiate a review of overload registrations at the graduate level for Quarter III to determine whether or not there have been any abuses.

- The OAPA will conduct a University-wide analysis of Quarter III undergraduate overload registrations to serve as a basis for determining whether further review at the college level is called for.

- The OAPA will carry out a review of summary data for Quarter I and Quarter II registrations to see if there appear to be any irregularities.

Dr. Vickey will lunch and chat with interested faculty and staff at noon, Tues., Apr. 9, in the Argos Staff Cafeteria. The Apr. 8 Board of Regents meeting will be the topic of conversation. The luncheon is dutch and no reservations are required.

**Picasso-USF Campaign Receives Special Award**

Gov. Reubin Askew this week presented a Special Governor's Award for the Arts for 1974 to the Picasso-USF Campaign. George Jenkins, Tampa businessman, civic leader and chairman of the Picasso campaign, received the award on behalf of the 34 member committee from the Governor at ceremonies Wednesday morning in Tallahassee. Also on hand were other members of the committee and USF President Cecil Mackey.

The special award for the Picasso campaign was one of 22 given to individuals, businesses and Florida cities for "outstanding efforts being made in the State to develop and further quality of life for all Florida citizens."

Others from the immediate area to receive Governor's Awards for the Arts included the City of Tampa, the City of Dunedin, The First National Bank of Tampa and House Speaker Terrell Sessums of Tampa. More than 150 candidates had been nominated for the annual awards, sponsored by the Fine Arts Council of Florida.

Gov. Askew praised all award winners and said that "It is the responsibility of the State government to help provide an atmosphere under which the arts can flourish and reach Florida citizens... This recognition is provided to individuals, businesses and cities that are helping to develop a strong cultural environment in our State. Winners exemplify activities, and contributions encompass work in the performing arts."

The Special Award for the Picasso-USF Campaign citation noted that "a large group of local community leaders have joined together to bring a major work of art into being in the Tampa Bay area. With the successful completion of this campaign, the world's largest Picasso sculpture will rise on the grounds of the University of South Florida and make Tampa one of only four communities in the United States to have a work of this scale that was designed by the famous artist."

**BOR Agenda Items**

The Florida Board of Regents will meet next Monday, Apr. 8 in the Assembly Room, Village Center, Florida Technological University, Orlando.

The following items are included on the BOR agenda:

- Progress report on the selection of a new branch campus in Pinellas County for USF.
- Request by USF for approval of faculty constitu.
- Presentation of Fort Myers group on USF Continuing Education in Fort Myers. (Cont. to Page 4)
A slow-pitch softball league for faculty and staff is now being organized for Quarter III by the Intramural Office. University departments may register an entire team, and interested individuals may register with the I-M Office and be placed on a team. The entry deadline for teams and individuals is Wed., Apr. 10. Games will be scheduled for 5:30 p.m., Mon.-Thurs., with play beginning on Apr. 15. The I-M Office is in PED 100, ext. 2125.

Faculty and staff members enrolled in either of the two group health insurance programs are reminded to contact Personnel Services at least one month prior to their 65th birthday so they can be transferred to the Medicare supplement plan. This same procedure applies to the dependent spouse of an enrolled member.

The nature of the workshop will limit participation to 25 staff members. For more information and reservations, call Personnel Training at ext. 2438.

*Income Tax Assistance Program for all staff and students whose 1973 income did not exceed $10,000 is available Apr. 1-15 in FAO-122. Appointments may be made by calling Personnel Training, ext. 2438.

Anne Kelley (eng.) was honored with a plaque from the Chapter of Phi Kappa Phi.

Ken Little (art), invited to exhibit in the "Image Idea?" Evanston Art Ctr. Invitational Exhibition from Feb. 17-Mar. 17 in Evanston, Ill.

John Catterall, Theo Nuzick and Paul Clinton (art), all have graphics in "Multiples" Invitational Exhibition at Western Mich. in Kalamazoo in late March.

Donald Saff (art) had two drawings in "Mixed Bag" Exhibition at Florida Gulf Coast Art Center from Mar. 2-27.

Stan Vanderbeek (art) had one of his computer/graphics in "Mixed Bag" Exhibition at Florida Gulf Coast Art Center from Mar. 2-27.

John Catterall (art) had three of his drawings in "Mixed Bag" Exhibition at Florida Gulf Coast Art Center from Mar. 2-27.

Sea "Farming" Topic Of Talk

A marine scientist now growing plankton, fish, muscles and worms with the nutrients from recycled municipal sewage waste will discuss ways to "farm" the sea with recycled wastes at a lecture at USF's St. Petersburg campus Apr. 5.

Dr. John H. Ryther, senior research scientist with the U.S. Geological Survey, Woods Hole Oceanographic Institution, Woods Hole, Mass., will speak at 2 p.m. on "Aquaculture and Its Potential for Waste Treatment." The talk is sponsored by the USF Marine Science Institute (MSI) and is tentatively set for Room 223-B, Building A, St. Petersburg campus. Dr. Ryther was previously scheduled to speak Feb. 6.

The Library Reference Department will continue to offer classroom lectures in use of the USF Library during Spring Quarter. The lectures are designed to acquaint students with the library organization, services offered and reference tools available within a particular subject field. To arrange for a lecture, call the Reference Dept. at ext. 2727 or 2728.

Seminars Scheduled for Quarter III: The following non-credit seminars are being offered by the USF Computer Research Center and will be held in the Conference Room, SCA 204.

- Statistical Packages
  - April 8, 10, 1975 from 10 a.m.-noon
  - April 15, 17 and 19 from 3-5 p.m.
  - April 22, 24 from 9-11 a.m.
  - Advanced TSO
  - April 30 from 10 a.m.-noon

- Writing Larger Programs
  - May 3, 6, 8, 10, 13, 15 from 11 a.m.-noon

*Vacant Positions at USF:

**Staff**

- Sec. II (med., hty, ed. resources), $5763; Sec. II (St. Pete Campus), $5471; Sec. II (St. Pete Campus, 50%), $2735; Sec. II (Fine arts, part-time, 50%), $2662; Clerk Typist II (Lib.), $5324; Clerk II (Lib., part-time, 50%), $2307; Clerk II (Lib.), $5074; Clerk I (Lib.), $4343; Sales Clerk I (aux. serv., part-time, 50%), $2307; Stock Clerk (aux.), $5324; Campus Security Police Captain (UPD), $12,319; Switchboard Opr. II (educ.), $5763; Personnel Tech. III (personnel), $11,046; Internal Auditor I (int. cont.), $10,398; Keypunch Opr. (CRC), $5554; Computer Programmer II (CRC-2), $9834; Vocational Counselor II (coop. educ. & placement), $9814; Motor Vehicle Opr. I (procurement), $5324; Lab Mechanic Machinist II (eng.), $7997; Radio-TV Engineer I (ed. resources), $7600; Lab Tech. II (med.), $8185; Lab Tech. I (med.), $5846; Groundskeeper II, $4886; Custodial Worker, $4698; Sec. II (speech comm.), $5763.

**Faculty**

Asst. or Assoc. Prof., Electrical & Electronic, Quarter I, 1974; Asst. or Assoc. Prof., Electrical & Electronic, Quarter I, 1974 or Quarter II, 1975--Col. of Engineering.

*Require testing. **Does not require shorthand. No person shall, on the basis of race, color, creed, religion, sex, age or national origin be excluded from participation in, be denied benefits of, or be subject to discrimination under any program or activity at the University of South Florida. The University is an affirmative action Equal Opportunity Employer. Interested persons should contact Personnel Services, FAO-011, 974-2530. Due to the printing schedule of this document, jobs which are re-advertised may be filled at the time of this printing or prior to subsequent issues. You should contact the Personnel Office or Job Line for the most up-to-date job vacancies.

The talk is sponsored by the USF Marine Science Institute (MSI) and is tentatively set for Room 223-B, Building A, St. Petersburg campus. Dr. Ryther was previously scheduled to speak Feb. 6.
Energy Group Seeks Members

USF's newly formed energy committee is trying to identify those faculty members who are interested in and have some expertise in the broad area of energy research. The committee is considering organizing an energy symposium to be held at USF in early May. Interested persons may contact Dr. Merle R. Donaldson, professor and chairman, electrical engineering, ENG 118; Dr. Robert Gilmore, associate professor, physics, PHY 114; Dr. William Denver Jones, professor, physics, PHY 114, or Dr. Ailon Shilon, professor, anthropology, SOC 107. The broad areas of energy research which could be looked at by this group include, but are not limited to, basic physics and chemistry research, engineering projects, social planning, financial problems, and demography problems.

Survival Workshops At St. Pete

A series of survival workshops on topics such as energy conservation, crime prevention, first aid and overcoming the high cost of food will be offered on the St. Pete campus. Each Thursday in April and May, the workshops are open free to the public and will be held at 7:30 p.m. in the recreation complex. Registration is encouraged but not required and may be made by calling ext. 253 on the St. Pete campus. The next workshop, Apr. 11, will feature Duane Zussy, assistant county administrator, Pinellas County, discussing "Energy Conservation," including how to save gas and electricity, and energy production.

"Climate & Art" Lecture Set

An illustrated lecture on "Climate and Art" by noted meteorologist Dr. Hans H. Neuberger will be presented Apr. 5 at 2 p.m. in the Physics Auditorium. It is sponsored by the USF chapter of the Society of Sigma Xi. Dr. Neuberger, a visiting professor at USF and an artist himself, has surveyed more than 12,000 paintings in the U.S. and Europe. "The results show that artists paint their climatic environment with amazing accuracy," he said. "Even the Little Ice Age is revealed in the paintings of the time."
