University of South Florida.
Renowned Pitching Star To Head Baseball Program

One of baseball's great pitching stars, Robin Roberts, was named head baseball coach at the University of South Florida last week, announced Dr. Richard Bowers, athletic director.

"Mr. Roberts," said Bowers, "impressed everyone he met here at the University. He has outstanding credentials to continue the development of the Brahman baseball program. I have every confidence that he will accomplish the goals that the University has set in this area.

Roberts replaces Jack Butterfield who is now with the New York Yankees organization.

Elected to the Baseball Hall of Fame this year, Roberts won 286 games in his 19-year major league career with four different clubs. He began his major league career in 1948 after attending Michigan State University on a basketball scholarship where he was an outstanding collegiate player.

Roberts was with the Philadelphia Phillies 13 years. In 1962, he moved over to the American League with the Baltimore Orioles and was with that organization through 1965. His last two years in the majors was divided between Houston and the Chicago Cubs. Roberts' impressive record was highlighted as a starting pitcher in five All-Star games and was on the All-Star team in two other games. One of the all-time great pitchers, he won six consecutive years (1950-55). His season high was in 1952 when he won an amazing 28 games. Following his major league career, Roberts has been in the investment business for nine years in Philadelphia and New York.

New College Elects Four Trustees

Four new trustees were elected to membership on the Board of Trustees of the New College Foundation Nov. 12.

The four are Sarasota businessman and philanthropist Jerry Collins, educator Dr. Kay Glasser, New College Foundation President Robert Toll and New College alumnus Maureen Cannon.

Each member of the board is elected to a three-year term. The foundation provides private gifts to support the costs of the specialized New College educational program which exceed normal state funding.

United Way Effort Praised

USF reached 96 percent of its Greater Tampa United Way goal of $23,000 this year.

"The United Way Team captains deserve a great deal of credit for what they did in this year's effort," said Chuck Hewitt, USF's United Way chairman. "And the University community made a commendable effort in a difficult year."

The overall Tampa campaign slightly topped its $1,880,000 goal.

Faculty Senate Picks Maybury

Dr. P. Calvin Maybury, Natural Sciences, has been elected Secretary of the Faculty Senate.

Dr. Roy Francis, Social and Behavioral Sciences, and Dr. Gordon Brunhold, Business Administration, have been elected to the Faculty Senate Executive Committee, which consists of them, as well as officers of the senate.

The apportionment of the senate has been amended and approved and provides for two representatives from the College of Nursing. There is currently one senator from that area. Election of the additional senator will take place between Nov. 29-Dec. 7.

Talent Needed For Follies

Wit, satire, music, dance, comedy and especially University faculty and staff who are willing to poke fun at the BOR, the Administration and themselves, are invited to contact Dr. Roy Francis to participate in the 1977 Faculty Follies.

The third annual follies will be Jan. 17 at 7:30 p.m. in the TAT. Entertainers, behind-the-scenes help and writers of satire and humor, particularly as it relates to the University, BOR or Legislature, are needed. This year's tongue-in-cheek theme will center around the search for a new University president. Interested persons may contact Dr. Francis at ext. 2893 in the sociology department, or write him at SOC 107.

TO: USF FACULTY AND STAFF
FROM: Wm. Reece Smith, Jr.

The University last week received a set of policy proposals being considered by the SUS Role and Scope Task Force.

Three of the five "discussion papers" are possible alternatives to ones previously submitted; and, as Vice Chancellor Joseph Stafford notes, the other two "are a direct result of discussions concerning the original five. These may clarify the intent of the original five."

Because of the importance of these subjects, copies of the documents have been placed in the Special Collections Room of the Library. I urge you to review them and provide me with your reactions and suggestions.

William R. Blount (crim. just.), "Alcohol Education Programs and Their Evaluation," presented at a workshop for alcohol education programs, sponsored by the Colorado Division of Highway Safety, Office of Alcohol-Driving Countermeseures, Peaceful Valley, Colorado, Oct. 15. ...presented the keynote address at an instructor's workshop, "Hey, kids, if they're falling asleep, you're doing it wrong! Using testing instruments as teaching tools" sponsored by the Indian River Area DWI Countermasure Project, Indian River Community College, Ft. Pierce, Florida, Nov. 13.

Robert W. Flynn (physics) presented "Saturation Diving" to the Naval Reserve Center, St. Petersburg on Nov. 6.

Silvia Buffo-Flore (Eng.) conducted a discussion of the topic "Education: A Right or a Privilege," Hillsborough County Federation of Women's Clubs, Nov. 16, 1976.

Dr. Chris P. Tsokos (math.) was invited to speak at the Invited Scholars PROGRAM, Rice University, "On the Behavior of Nonlinear Stochastic Discrete Systems", in Houston, Texas, Nov. 8....was an invited speaker at the University of Texas at Arlington, Texas, "A New Look at Compartmental Analysis for Pharmacokinetic Systems", Nov. 10.

Raymond Schneider (speech comm.) was guest critic for the Ninth Annual Oral Interpretation Festival at Kutztown College, Kutztown, Pennsylvania, Oct. 22 & 23.

Wiley P. Mangum (aging studies) and Donald H. Gummerson (President, Retired Executives, Sarasota) were the co-leaders of a workshop on "Retirees and Pre-Retirement Planning" at the Mid-Career Seminar held at USF, Sarasota, Nov. 13.

Rosalie H. Washington (aca. aff.) served as keynote luncheon speaker for the Women in Management Workshop, Nov. 9, sponsored by the Sales and Marketing Executives Association....and as a panelist for the Symposium on Minority Rights and Reverse Discrimination, at USF/St. Petersburg, on Nov. 15, sponsored by the Florida Endowment for the Humanities.

U.S. Silberman (biology) and C.A. Chambers (grad. stu.) presented "Dinitrogen fixation by clinical isolates of Klebsiella" at the 57th/58th Annual meeting, Southeastern Branch of the American Society for Microbiology in Athens, GA on Nov. 12-13.

N.M. McClung (biology) and N.J. Holbrook (med. grad. stu.) presented "Effect of antifungal agents on the perfect stage of dermatophytes" at the 57th/58th Annual meeting, Southeastern Branch of the American Society for Microbiology in Athens, GA on Nov. 12-13. J. Jeansonne and J. Tyson (both biology graduate students) also attended.

M.A. Tompkins (chem.) spoke on "An Environmental Analytical Method for Antimony and Germanium" at the Southeastern Regional Meeting of the American Chemical Society meeting in Gatlinburg, Tenn., on Oct. 27-29. At the same meeting, Richard Gilbert (chem.) spoke on "Instrumental Method for Analysis of Light Hydrocarbons in Sea Water" and William Logatin (chem.) spoke on "Substituent Effects in Pyruvamide Carbinolamine Formation".

Donald R. Harkness (Amer. studies) spoke to students at Woodbridge Elementary School on Career Day and the topic was entitled "So You Want To Go To College," on Nov. 15.

Juan C. Bolivar and Daniel Calhou (med.) presented a paper entitled, "Hemangioma of the Liver" at the Pan American Medical Association 50th Anniversary Congress in Hollywood, Florida on Oct. 27.

Richard E. Dutton (mgmt.) presented a paper, "IA: Toward A Functional Model" at the annual meeting of the Southern Management Association, Atlanta, GA on Nov. 17-20.

Hans Juergensen (hum.) gave a reading of poems from his new book Journey Toward the Roots at the Tampa Jewish Community Center on Nov. 14.

E. Ray Phillips (math. educ.) presented a paper entitled "Solving Quadratic Inequalities" at the regional meeting of the National Council of Teachers of Mathematics in Orlando, Florida on Oct. 16.

Betty K. Lichtenberg (math. educ.) presented a paper entitled "Common Fractions Won't Be So Common--An Argument for Introducing Decimals Earlier" at the regional meeting of the National Council of Teachers of Mathematics, Boston, Massachusetts on Nov. 11.

Donovan R. Lichtenberg (math. educ.) presented a paper entitled "Minicalculators and Repeating Decimals" at the regional meeting of the National Council of Teachers of Mathematics in Boston, Massachusetts on Nov. 12.

Roy L. Mumme (dir., Fort Myers) has been re-appointed as an Ex Officio member of the Board of Directors of the Metropolitan Fort Myers-Lee County Chamber of Commerce.

Wm. Fudge (mass com.) has been appointed as a member of the Academic Committee of the American Advertising Federation, Washington, D.C.

Manny Lucoff (mass com.) was appointed to the broadcast regulation committee of the Broadcast Education Association.

Mary Helen C. Harmon (Eng.) was elected Secretary of the Studies in Popular Culture Section of the South Atlantic Modern Language Association at the Forty-Sixth Annual Convention held in Atlanta, Nov. 4-6.

Dr. J.A. del Regato (radiology) has been elected President of the Board of Governors of the American Federation of Clinical Oncologic Societies.

S.C. Bloch (physics) has been appointed as a member of Commission H of the United States National Committee for the International Radio Science Institute.

Dr. H.K. Eichhorn (astronomy) was elected to a three year term as Vice President of International Astronomical Union (IAU) at their meeting last August which was held at the Univ. of Grenoble in France.....also in August he was appointed an honorary professor at the University of Graz in Austria where he spent the previous spring semester as Visiting Professor.

Dr. Terence C. Owen (chem.) was elected Vice-Chairman of the Southeastern Region of the American Chemical Society Meeting at its meeting in Gatlinburg, Tenn. on Oct. 27-29.
