Segrest named acting USF general counsel; Burgess appointed to health sciences center

Noreen E. Segrest has been named as acting general counsel for USF, replacing Bryan S. Burgess, who has resigned to accept the position of associate vice president for legal affairs, effective March 1.

Segrest, a member of the USF general counsel's office since 1991, now serves as the chief legal officer for USF and as the legal officer for various not-for-profit corporations affiliated with the university, including the USF Foundation, Inc., the university's principal fundraising organization.

Before coming to USF, Segrest was an associate for Lima & Associates in Winter Park and a law clerk at the University of South Florida office of the general counsel. She received a bachelor of arts degree in management with honors from USF in 1982 and earned her juris doctor degree from the University of Florida College of Law in 1985.

Segrest becomes the second female cabinet-level member of President Francis T. Borkowski's staff. "Noreen Segrest has demonstrated the ability and the commitment necessary to fulfill this important assignment," said Borkowski. Borkowski said Burgess' move to the health sciences center will mark a transition period for the general counsel's office pending a future search for a permanent general counsel.

"I have full confidence that Noreen and the dedicated staff of the general counsel office will continue to provide high quality legal service to the university," he said.

Burgess, who had been USF general counsel since 1984, began his legal career as a clerk at USF in 1979 after receiving his doctorate of law with honors from the University of Florida in 1978. In his new position he will provide advice to health sciences administrators in the formulation, implementation, administration and review of policies, procedures, contractual relations and other health sciences institutional affairs.

"I am grateful for the privilege of serving under President Borkowski's leadership," Burgess said. "I am enthusiastic about the opportunity to build upon my legal experience and pursue a new career direction in the field of health care policy and administration."

The need for greater regional cooperation.

"We present these symposiums to help focus public attention on issues and opportunities of special importance to the communities we serve," says USF President Francis T. Borkowski. "I can't think of anything that affects the future of this area more than the need for more regional cooperation and public/private partnerships on behalf of economic development."

The featured summit speakers include:

"Author and government consultant David Osborne, co-author of Re-inventing Government: How the Entrepreneurial Spirit is Transforming the Public Sector."

"Social forecaster David Pearce Snyder, an editor of The Futurist and program director of Technology Futures Inc."

"Banker Kenneth Lewis, president of general banking for NationsBank and the former president of the company's Florida bank in Tampa."

The economic summit—the fourth in the series of President's Symposia—will be held from 8:30 a.m. to 5 p.m. March 18 and from 8:30 a.m. to 12:30 p.m. March 19. Attendance is limited, and reservations are required. Registration is $22 per person. The event is open to the public. For more information on the symposium, call ext. 4-2607.

Snell home to move to USF St. Petersburg

The house of an area developer, Perry Snell, will be relocated to USF's St. Petersburg campus this spring to serve as an alumni and faculty center. Bay Plaza Cos. is donating the two-story house to the campus and is covering part of the cost of moving it.

The house (shown at left), currently located at 106 Second Ave. N. in St. Petersburg, is slated to move to Fourth Street South on university land.

It is eligible for the National Registry of Historic Places, and USF will apply to place it on the registry after restoration. USF administrators expect the house to be restored in about a year.

"Mr. Snell and his homes are definitely a part of the history of St. Petersburg, just as I feel this campus is part of the city's history and its future," said campus Dean H. William "Bill" Heller. "I'm thrilled to have a way to save this piece of history and make it useful to the community, and we especially appreciate the support Bay Plaza Cos. have shown in ensuring this history will not be lost."

Snell, who has donated land at the university for a future medical school, said he was attracted to USF due to its commitment to developing a strong relationship with the community.

The house, built in 1925, was briefly the home of Snell's grandmother. It is a two-story home with a brick exterior and a separate carriage house.

The two-story house will be sold to Winter Haven's Citrus College. The college plans to renovate the house and use it as an alumni center.

Snell, who is a member of the university's Board of Trustees, said he is pleased with the move.

"I'm glad to see this house will be preserved and used to its best advantage," Snell said.

The house will be moved to USF St. Petersburg in the spring and will be restored on campus.

The house will be used as an alumni and faculty center, and it will be open to the public.

to health sciences center will mark a transition period for the general counsel's office pending a future search for a permanent general counsel. I have full confidence that Noreen and the dedicated staff of the general counsel office will continue to provide high quality legal service to the university," he said. Burgess, who had been USF general counsel since 1984, began his legal career as a clerk at USF in 1979 after receiving his doctorate of law with honors from the University of Florida in 1978. In his new position he will provide advice to health sciences administrators in the formulation, implementation, administration and review of policies, procedures, contractual relations and other health sciences institutional affairs. I am grateful for the privilege of serving under President Borkowski’s leadership,” Burgess said. “I am enthusiastic about the opportunity to build upon my legal experience and pursue a new career direction in the field of health care policy and administration.” By Dan Cassedy

Student stricken with spinal meningitis

USF health officials issued a health alert last week to the USF community following the hospitalization of resident hall student Heather Coryell for spinal meningitis, a contagious bacterial infection.

Coryell is known to have attended classes, worked at a Busch Gardens gift shop and attended a party in apartment M-24 of Willowbrook Apartments before knowing of her condition.

USF students were treated with rifampicin capsules, the appropriate treatment for the carrier state of meningitis.

Coryell was expected to recover as of press time last Friday, A St. Petersburg Junior College student died of meningitis Feb. 24. For more information about the treatment of bacterial meningitis, call the infection control unit at Health and Rehabilitative Services, 272-6348 or 272-6300 between the hours of 8 a.m. and 5 p.m.

Organizational Review open forum scheduled

President Francis T. Borkowski has announced that because of university-wide interest in the organization review, Dr. Aleece Pappas, the lead facilitator Marwick consultant in the effort, will make a presentation of the draft recommendations concerning Phase I of the review at a university open forum from 2-3:30 p.m. Wednesday, March 10 in the Special Events Center. Borkowski and members of the steering committee will be present to discuss the review process and address questions. The university community is invited.

Planners are being made to have a live television broadcast of the open forum available to the regional campuses.
