Contingency Budget Planners To Receive Briefing Today

USF groups and individuals involved in developing a 1975-76 contingency budget plan meet at 2 p.m. today in CBA 104 for a briefing on their various responsibilities in the coming weeks.

- Provide the chairperson and the group a central point of contact for receipt and distribution of reports and other information relative to the planning process.
- Provide the coordinator of the planning process (Vice President Albert Hartley) with periodic status reports.
- Assist the chairperson of the group in any appropriate way with respect to the Contingency Budget Planning Process.
