This News Article is brought to you for free and open access by the University History: Campus Publications at Digital USFSP. It has been accepted for inclusion in Inside USF by an authorized administrator of Digital USFSP.
Twenty-eight outstanding Career Service and A&P staff members at USF were honored at an awards luncheon on December 12.

Outstanding Service Awards are presented annually in each vice-presidential division (Academic Affairs, Administrative Affairs, Medical Affairs, Student Affairs, Alumni and Development, and University Relations), and one award is presented University-wide for the night shift.

The awards are made on the basis of outstanding service to the University and to the community, according to Mary McKeever, assistant to the Director of Human Resource Development, and the staff member in charge of USF’s award program.

"The Outstanding Service Awards are USF’s way of recognizing exemplary employees," says McKeever. Any staff member may nominate an employee for an award, and selections are made by special committees in each division, according to McKeever.

Each award winner receives a plaque and a check for $500. Intercom salutes the 1985 Outstanding Service Award winners pictured here.
AFFIRMATIVE ACTION AWARDS: At the direction of the President, the Equal Opportunity Committee is soliciting nominations in the following areas.

I. Distiguished Individual Affirmative Action Award: A cash award of $500 plus a commemorative plaque will be made to individuals (faculty, staff, students) for their significant contributions in achieving the University's affirmative action goals in in- and off-campus activities.

II. Outstanding Affirmative Action Award: The award will be made to administrative units (colleges, departments or student organizations) that demonstrate extraordinary efforts toward furthering affirmative action on and off campus.

Any member of the University community may submit nominations for the awards. Nominations should be submitted to the affirmative action officer at the following: ADM 281, no later than February 7. For further information, contact John F. Hyten, Equal Opportunity Committee, ADM 4541.

FROM ADMINISTRATIVE AFFAIRS:

"Name the New Personnel Classification System."

"The "name the classification system" competition will be open to all Career Service employees. Each eligible em- ployee may submit one entry to the Committee, 10010, by January 15, 1986, to include name of employee, classification title and name of system. All entries will be reviewed by a panel of Career Service representatives and the Award Committee. The winning entry will be chosen by the Personnel Classification Plan Advisory Council. A prize of a $300.00 savings bond will be awarded the winner.

Room to your participation in this contest.

Career Service Senate election results

Career Service Senate elections were held in December. Ten Career Service Employees were elected as Senators for 1985-87.

MICROGENE M. KING (nursing) published her first book, "Crisis in Nursing," in 1985. She has been a nursing instructor at the University of Florida, Gainesville, and is currently a faculty member at the University of Miami, Coral Gables. She has written numerous articles for nursing journals, including "The Role of the Nurse in the Management of Patients with Acute Respiratory Distress Syndrome," published in the American Journal of Critical Care. She is currently a visiting nurse at the Miami Children's Hospital, where she provides nursing care to critically ill children.

JEFFREY H. WELLS (microbiology, immunology and pathology) has been appointed to the Position of Assistant Professor of Biochemistry and Molecular Biology at the University of Miami School of Medicine. He will be responsible for teaching and research in the area of immunology and molecular biology. His research interests include the study of the immune system and the development of new diagnostic tools for the early detection of infectious diseases.

DEMETRIOS G. HALKIAS (microbiology, immunology and pathology) has been appointed as an Assistant Professor in the Department of Microbiology and Immunology at the University of Miami School of Medicine. He will be responsible for teaching and research in the area of immunology and molecular biology. His research interests include the study of the immune system and the development of new diagnostic tools for the early detection of infectious diseases.

Nobel Prize winner to speak at POPS Concert Series

Philip W. Anderson, Nobel Physics Prize recipient, is scheduled to speak, the University of South Florida Physics Department's third POPS CONCERT (Perspectives on Physics Series) University, Community, and Industry in CONCERT on Thursday, January 15, 14-17.

Anderson, who earned his Ph.D. in physics at Harvard in 1964, has made significant contributions in the areas of the spectroscopy of gases, the properties of insulating magnetic materials, magnetic imperfections, and superconductivity. He was awarded the Nobel Prize in Physics in 1977 (with N.F. Mott and J.H. Van Vleck) for his work on the field of condensed matter physics. Currently, Anderson is Joseph Henry Professor of Physics at Princeton University.

Anderson has received numerous honors and awards including the American Physical Society's Buckley Prize, the Heineman Prize of the Göttingen Academy of Sciences, and the Guittiere Medal of the Institute of Physics (London).

Speaking at 8 p.m. on Thursday, January 15, in the Pantheon Building room 141, Anderson will give a lecture aimed toward the interspersed listener. More technical presentation will be presented on Friday, January 17, at 3 p.m. in the same location. The public is invited to attend both addresses.

For more information about the POPS CONCERT, contact Roger Clapp at 794-2862.

special interests and concerns, to report the notable events of the University, and to provide a means of communication with faculty and staff about University issues and actions, and to provide a forum for faculty and staff to make suggestions to the University.

The Intercom is published every two weeks from September to May, with some variations conditioned by the academic calendar, and distributed by campus mail.

Policy Statement

Intercom is the official employee publication of the University of South Florida, published by the Office of Media Relations and Publications (ADM 284). Its purpose is to provide timely information to faculty and staff about University issues and actions, to provide announcements and news items of interest to employees, and to report the notable events of the University. The Intercom is published to provide a means of communication with faculty and staff as well as to provide a forum for faculty and staff to make suggestions to the University.

The Intercom is devoted exclusively to those employed at USF and does not deal with student-related information. It is published every two weeks from September through May, with some variations conditioned by the academic calendar, and distributed by campus mail.

---

Deadline: The next issue of Intercom will be published January 31. Please submit copy to Sun Dome events, Intercom editor, on or before the deadline for the next issue in January 15 (noon). The deadline for Department of Housing and Residential Services is January 18 (noon).
