USF Task Force to Present Final Report to Mackey

The USF Task Force on Contingency Budget Planning approved its final report and recommendations in a three-hour session last Friday.

Approved committee reports, subject to organizational and word changes, begin on Page 2 and are continued on the insert—Pages 3 and 4.

Chairperson Harrison Covington said the final report, along with previous Task Force recommendations, would be sent to President Cecil Mackey as soon as possible for review and appropriate action. The Task Force voted three weeks ago to conclude its work and turn its results over to President Mackey for appropriate referral to existing University Councils and Committees.

Sasser to Succeed Baldwin

Dr. Emery Sasser, chairperson of mass communications, has been named by President Cecil Mackay as chairperson of USF's 20th Anniversary Task Force, effective immediately.

Dr. Sasser succeeds Donald Baldwin, who is leaving USF this month to become director of the Modern Media Institute (MMI), a new educational corporation created by Nelson Poynter of the (St. Petersburg) Times Publishing Co. and president of The Poynter Fund.

The Task Force is making plans for a year-long observance, beginning next January, of USF's contributions and service to Florida since its creation in 1956.

WUSF to Air PBS Programs

WUSF - Channel 16 has selected 19 programs in five major categories for the coming PBS season as public television's second State Program Cooperative purchase concluded, John Hershberger, station manager announced last week.

The shows representing arts and humanities, contemporary life, special audiences, science and public affairs were chosen to reflect the station's programming philosophy of "improving the quality of life of viewers in our broadcast area," Hershberger added.

New offerings purchased by the station include: "Lowell Thomas and America: 1919-1963," highlights of each year revisited through historical American newsfilm and commentary; two practical advice shows, "Erica," Erica Wilson's imaginative and artistic demonstrations of the craft of needlework; and "What's Cooking," a recession-cooking show offering attractive middle-income recipes with an eye on nutrition and money saving shopping tips. From Boston's WBGH comes "Say Brother--National Edition," a humor, culture and light commentary magazine format show, viewing the many dimensions of Black American life from one city's vantage point. Finally, Jacques Cousteau presents "Oasis in Space," the colorful explorations of the oceans through the investigative techniques of satellites, aircraft and underwater SCUBA.
Guarneri Quartet Concert Planned

The internationally-renowned Guarneri String Quartet will return to the Florida West Coast for their fourth consecutive appearance in the USF Summer Chamber Music Series.

The string ensemble will perform in three concerts, on June 24, 26 and 28 in the USF University Theatre at 8:30 p.m. Admission to each concert is $4 for general admission and $2 for all students. A three-concert series ticket is also available for $9 general admission and $4.50 student admission. The Summer Chamber Music Series is sponsored by the USF Medical Center for the Arts, and the concerts made possible through the contributions of individuals and businesses.

At this time, no events other than the concert performances by the Guarneri String Quartet are planned.

Welcome, Newcomers!

INTERCOM wishes a sincere "welcome" to the following new employees whose names have been supplied by Personnel Services.

Research Program Explored

"The Answer People" is the topic for a June 22 Project 13 program on WTVT, Channel 13 TV which will feature a look at USF research in the community. The program will air at 10:30 p.m. and according to Ch. 13's Cy Smith will be a look at "what research is all about and what role it plays at a university and in the community."

Dr. William Taft, director of sponsored research, will be featured on the program, along with the following faculty members who will discuss their research:

- Dr. Joseph Simon, environmental studies of Tampa Bay;
- Dr. D. F. Martin, red tide and water weeds;
- Dr. Jerry Sergent, use of epoxy glue in spaceships;
- Dr. David Hessinger, sea anemones;
- Dr. Conrad Fennemue, use of power plant waste gases to grow corn;
- Dr. Thomas Hopkins, marine science fish studies, and Jack King, laboratory manager, video taping of trained worms.

Adult Non-Credit Courses Scheduled

Non-credit courses for staff, young people and the community will be offered through USF's Center for Continuing Education during Quarter IV.

The newest course, "Raising a Responsible Child," is designed for adults concerned with raising children who will be responsible for their own behavior. Classes run from June 25-Aug. 20, in the evening.

"Reading/Study Skills for Junior High and Senior High School Students" meets from June 21-Aug. 23 and offers instruction in study skills and improved reading speed.

Other courses for adults include "Career Guidance for Adults" (June 25-Aug. 20); "Study Skills for the Adult Learner" (June 23-Aug. 18) and "Effective Reading for Business or Pleasure" (June 24-Aug. 19). All meet in the evening.

For information on fees and times, contact Continuing Education, FAO 105, ext. 2403.

Duane Lake, director of the University Center since 1960, died last Saturday following an extended illness.

A native of Devils Lake, N.D., Lake, 57, received his bachelor's degree in business personnel from the University of Minnesota.

Prior to coming to USF, he served with the University of Nebraska and South Dakota State College.
