This Other is brought to you for free and open access by the St. Pete Arts Alliance at Digital USFSP. It has been accepted for inclusion in Marketing, Presentations & Publications by an authorized administrator of Digital USFSP.
The DMG School Project and The St. Petersburg Hot Glass Workshop offer two, 15 week long, comprehensive glass working classes for Eckerd College Art Students. Now in the third year, these courses are designed for students with varying levels of experience. Under the instruction of St. Pete Hot Glass Workshop Manager, Mariel Bass, each student earns full course credits while gaining valuable hands-on studio experience. Beginning students
learn glass working techniques including: glass blowing, casting, etching, and cold fabrication. Advanced students concentrate on specific techniques to improve their skills while focusing towards a cohesive body of work.
