Assistant VP For Academic Affairs Budgeting Appointed

Dr. Barbara Rhoads Sherman of Western Michigan University was appointed Monday as assistant vice president for academic affairs responsible for academic budgeting, effective June 6.

Dr. Sherman, who has held a similar position at WMU since 1972, received her Ph.D. from the University of Michigan in 1973. Prior to her appointment at WMU, she served for three years as director of financial aids at Albion College, Albion, Mich.

She replaces Dr. C. J. Carter who recently accepted an appointment as vice president for administration at Western Carolina University.

"Dr. Sherman has an outstanding background and her work at Western Michigan closely parallels her area of responsibility here," said Dr. Carl Riggs, vice president for academic affairs. "Her recommendations, both in writing and orally, are among the most outstanding I have ever experienced. We are looking forward to her joining the staff."

At USF, she will work with the vice president for academic affairs and the deans in the development and implementation of budgets for USF's academic programs, according to Dr. Riggs.

The co-author of a book, "Experiments in General Psychology," Dr. Sherman is married and has two adult sons.

Neonatal Nutrition Course Offered

An intensive course in neonatal nutrition will be offered to physicians May 16-20 at the Travelodge at USF by the USF College of Medicine and the HEM Office of Maternal and Child Health, Bureau of Community Health Services, through an HEM grant to USF. It is designed for medical teams of neonatologists, perinatologists, dieticians and nurses involved in neonatal care.

Nineteen physicians, nurses and dieticians, most from USF, will teach the course. Featured speakers will include Dr. Gerald E. Gaull, chief, department of pediatric research, New York State Institute for Basic Research in Mental Retardation, Staten Island, N.Y.; Dr. Charles Mahan, associate professor, obstetrics and gynecology, University of Florida; and project director, North Central Florida Maternity and Infant Care Project and WIC Program, Gainesville, and Dr. Michael Lane, director, BSE, Preventable Disease and Nutrition Center for Disease Control, Atlanta.
