Maintenance To Put Power Out On Campus

Annual substation electric maintenance will be performed on Monday, June 13 and power will be out for approximately 10 minutes at some time during the day.

Physical Plant cannot provide the exact times of the outages, but the approximate times are indicated below:

<table>
<thead>
<tr>
<th>Approximate Time</th>
<th>Buildings Affected</th>
</tr>
</thead>
<tbody>
<tr>
<td>7:10</td>
<td>TAR, TAT, CTR, RAL, RBE, RAR, RGA, SBC, ADM, INF, PHY, ENG, SCA, CHE, LIF, LSA, AND #1 and #2 sewage lift stations.</td>
</tr>
</tbody>
</table>

Between 9:00 a.m. and 9:30 a.m.

Between 10:30 a.m. and 11:00 a.m.

MEMBERS OF THE FACULTY AND STAFF:

As the 1976-77 academic year draws to a close, I wish to take this opportunity to tell you how grateful I am for your support, dedication and encouragement.

Since coming to USF last fall, my affection for the University, its faculty, staff and students, has grown considerably. It has been a rare and rewarding experience.

While the condition of higher education in Florida needs improvement, I believe there are signs which indicate that the future holds great promise for USF and other institutions in the State University System.

In many ways, this was a good year for USF. We have worked hard on the new SUS Rate and Scope Document with good results. The Presidential Selection Advisory Committee is currently in the process of selecting the top candidates for recommendation to the Board of Regents for the permanent president.

With the assistance and cooperation of several community members, our baseball field had lights installed and grandstands built and was dedicated to the late Tampa sports figure James "Red" McEwen. Construction continues on schedule for the new Business Administration Building and plans are proceeding on the mass seating and engine arts facilities.

The faculty is being increasingly recognized for its contributions to teaching, research and community service, and we continue to attract a large number of high school valedictorians and merit scholars. In addition, we have made great strides forward in building better relations with our university communities.

These are all healthy accomplishments and ones that make me believe that USF will continue to grow and become more prominent.

Whether you are on campus or away, I wish all of you an enjoyable summer.

Sincerely,

Florida Statewide Conference Slated

June 16, 17

The USF Office of Institutional Research is hosting the 10th annual Florida Statewide Conference on Institutional Research June 16-17 at the Caribbean Gulf Hotel, Clearwater Beach. The theme of the conference is "The Shift in Decision Making Responsibilities: Institutional Research Response."

Included in the program is an educational legislative exchange with panel participants including State Sen. Betty Castor, 23rd District, and legislative analysts Jane Hayman, Senate Education Committee and Suzanne Fisher, House Education Committee.

Registration is $20 which includes all conference sessions and the banquet. For additional information or to register, please contact Fran Hill at ext. 2450.

Faculty Sought To Direct Campus Honors Program

A new, University-wide honors program is being planned to begin during Quarter II, 1978 and a director is being sought.

According to the University Honors Program Committee, the committee would like to hear from any current full-time faculty members who would be interested in serving as honors program director. The faculty member would receive one-third release time from other departmental or university duties. July 8 is the application deadline.

Interested persons should contact the Academic Affairs Office at ext. 2154.

Members of the honors committee, who are willing to discuss their plans and the duties of the director, are Richard Taylor, Gordon Brunhild, Judith Kase, Stanley C. Kranc, Diane W. Merner and Harold Vetter.

The committee will be working over the summer to set up procedures for the honors program. According to the committee, USF has experienced a number of attempts to develop programs directed toward the superior student over the past years. These programs have included departmental honors courses, such as in freshman English; a pilot project for freshman students in liberal arts, and a full-fledged liberal arts honors program. The latter has been the most successful, serving some 100 students over the past six quarters. It is the structure which is being proposed for the entire University.
omniumGatherum

Marilyn M. Ferradino (women's studies program) and Joe Ferradino (women's studies program) led a workshop on "Alternative Lifestyles" at the Two-Career Couple conference sponsored by Women in Communications, May 14.

Travis J. Northcutt, Jr. (dean, college of soc. & beh. sci.) moderated a plenary session on "Hypertension Management: Education and the Mass Media," at the 2nd Florida Hypertension Seminar, USF College of Medicine, May 11.

Charles A. McIntosh, Jr. (bus. adm. - associate dean) attended the annual meeting of the Graduate Management Admissions Council, (GMAC) and served as a panelist on the panel "Changing Demographics and GMAC" and chaired a discussion group on GMAC activities. Dean McIntosh is past chairman of the Board of Trustees of this organization.

Curtis W. Wienerk (ant.) served as a co-chairperson for the 2nd Florida Hypertension Seminar held at the USF Medical College May 10-11. He moderated a plenary session on Innovative Hypertension Management Techniques on May 10 also.

Tom D. Freijo (educ.) and Vern W. Whitney (educ.) served as judges for the 16th Annual Spanish Declaration Contest for the Hillsborough County School System at the Circulo Cubano (Cuban Club), April 22.

Joseph Bondi (educ.) served as a consultant to the Minister of Education in the reorganization of the Department of Education - conducted seminars on leadership skills for members of the Department of Education, New Brunswick, Canada, May 23-24......was the keynote speaker at the annual conference of the Atlantic Provinces School Administrators Conference in New Brunswick, Canada, May 27.

R.E. Dutton, D.N. Harlow, J.T. Knippen, K.R. VanVoorhis (man.) presented a four-day conference for 24 supervisors from the Tampa Bay Area, during May 17-20 coordinated by the Center for Continuing Education. Participants represented thirteen different firms from a variety of product/service fields.

C.D. Spielberger (psy.) presented a colloquium at York University on "Stress and Anxiety", Toronto, Canada, on April 7......conducted a seminar on "Test Anxiety" at the University of Michigan, Ann Arbor, April 8.

Susan Stoudinger, Alden Gilmore & Roy I. Mumme (dir., Ft. Myers. Library) were participants at Edison Community College, Human Services Workshop on May 17.

Judith B. Kase (educ.) chaired a discussion entitled "Children's Theatre Structure" at the Florida Theatre Conference Children's Theatre Symposium in Jacksonville on May 1.

Carleton H. Baker (physiology) was chairman of the session "Infectious Diseases, the Erythrocyte and Cerebral Vascular Disease at the American Heart Association,"Florida Affiliate, Scientific Sessions, May 20 at the Don Ce Sar Beach Resort Hotel, St. Petersburg Beach.....was presented the Silver Medallion by the American Heart Association, Florida Affiliate, at the President's Dinner of the Association on May 21. The award is in recognition of his service on the research committee of the Association since 1971.

Darrell L. Davis (physiology) was discussant of the session "Vascular Smooth Muscle" at the American Heart Association, Florida Affiliate, Scientific Sessions, May 20 at the Don Ce Sar Beach Resort Hotel, St. Petersburg Beach.

State-wide Conference Topic
To Be Role Of Artificial Reefs

Artificial reefs, which play a major role in supporting Florida's half-billion-dollar-a-year sport fishing industry, will be the topic of a state-wide conference to be held June 10-11 at the USF St. Petersburg Campus (USFSPC) Auditorium.

The State University System of Florida Sea Grant Program is sponsoring the conference which is open to the public for a nominal registration fee. The USF marine science department is hosting the event. Sessions will be from 9 a.m.-6 p.m. June 10 and 9 a.m.-5 p.m. June 11.

Richard B. Stone, an authority on artificial reefs with the National Marine Fisheries Service, will be the featured speaker at 9:15 a.m. June 10.

Dr. Ella Hanni of the USFSPC economics faculty and Dr. Heyward Mathews of the St. Petersburg Junior College biology faculty, who have been involved in a Sea Grant supported study of the economic and recreational benefits of an artificial reef off Clearwater, will also be featured. Dr. Hanni will speak at 10:15 a.m. June 11 and Dr. Mathews at 9:45 a.m. June 10.

USF marine science graduate student Don Schug, who interviewed fishermen fishing on the Clearwater reef, will explain the results of the census at a 2-3:30 p.m. special interest group session June 10.

Other speakers from Florida, Mississippi and South Carolina will discuss permitting procedures, site selection, biological and engineering aspects of reef materials and the economic and social significance of artificial reefs.

"Interest in artificial reefs has been increasing steadily," said Dr. Popenoe, Florida Sea Grant Program director and conference chairman. "Numerous artificial reefs have been successfully constructed in recent years using old discarded tires, concrete, steel, old culverts and similar salvage materials. Reef committees are now operating in many coastal counties."

More information about the June 10-11 conference is available from the Florida Sea Grant Program, 120 Newins-Ziegler Hall, University of Florida, Gainesville, Fla. 32611, phone 904/392-1837.

New Employees Welcomed

INTERCOM wishes a sincere "welcome" to the following new employees whose names were supplied by Personnel Services.
