USFSP

BULLETIN Vol. 1, No. 21
St. Petersburg Campus

Wednesday
April 29, 1970

INFORMATION PLEASE!

POOL TABLE is located in the room behind the Bookstore to be used at your leisure--free.

BROCHURES are available for Quarter IV course offerings at the Receptionist's Desk, Bldg. A

UPPER DIVISION NOTE ~

Persons wishing to apply for admission to upper level Social Studies should submit an application for evaluation of their records.

Please see Donna Christensen in Aom. 109 for further information.

LOST AND FOUND

LOST AND FOUND is located in the lobby of Bldg. A at the Cashier's Desk. Such items that await claiming include: textbooks, notebooks, gym clothes, eyeglasses, umbrellas, sweaters, raincoats, photographs, thermos, keys, fishing light, etc.

USFSP BULLETIN is printed weekly by interested students in conjunction with the Student Association. Any pertinent information or contributions may be submitted to BULLETIN personnel in the Student Activities Office located in Building B.

DEADLINE is every Tuesday at 12:00 Noon.

FINALE!

30th Classics Series

THE WRONG BOX

TUESDAY • MAY 5 • 7:30 PM

WEDNESDAY • MAY 6 • 8:50 PM

THE WRONG BOX is the final movie to be shown in the Film Classics Series of '69-'70. The Series was sponsored by the Student Association.

The film is a delightful study of love and larceny, with the emphasis on laughter. The love involves an innocent inept medical student with a virtuous maiden who faints at the sight of his brawny arms. The larceny involves a tentine, that peculiar "survivor takes all" insurance, with two aging brothers left, and one extremely determined to speed the departure of the other. There are also some conniving nephews and unexpected corpses popping up in the boxes and coffins.

"So fantastic it virtually pops right out of the screen."--NEW YORK TIMES

"As funny, sunny, and urbane a movie as any audience could ask for."--NEWSWEEK.

The film stars Michael Caine, John Mills, Ralph Richardson, Nanette Newman, and Peter Sellers.

DATELINE... QUARTER IV

ST. PETERSBURG CAMPUS JUNE 10
(Quarter IV is from June 16 to July 31)

TAMPA CAMPUS JUNE 15
(Quarter IV is from June 16 to August 14)

IN RETROSPECT. EARTH DAY

(USFSP's Pai Chi sponsored guest speaker Mrs. Jean Machlon on Thursday of last week. She is considered to be the most knowledgeable person in the State of Florida on problems of pollution.)

Mrs. Machlon spoke positively and loudly on the citizen's role in preventing pollution to a small gathering of students, faculty and reporters.

She considers herself a "radical" and believes "activism is not the sole responsibility of youth." Hence her involvement in Earth preservation.

Citing some frightening statistics, she stated that the USA comprises 6% of the world's population, yet consumes 80% of world production. It is this mass consumption/production that is the prime pivotal of all pollution problems rather than solely a population increase.

Mrs. Machlon questioned governmental priorities speculating whether ARM or involvement in SE Asia was justified in priority. She also stressed the need for government to institute pollutant standards in addition to the few existing now.

The speaker briefly discussed the situation in the Boston area where some very young children have suffered irreparable brain damage due to the excess of carbon monoxide present in the air.

What specifically can a citizen do to prevent pollution? Mrs. Machlon suggests:

- minimum use of the automobile
- reusable (containers, bottles, etc.) items
- discretion in our consumption and as one member of the audience said, "use it up, wear it out, make it do." This will affect the amount of waste materials.
- demand government responsibility in coordinating a crash research program, with short and long-range planning. More communication between groups is essential.

"How much can we justify at the expense of future generations? We are not the owners of this planet, we are the temporary tenants."

WELL, WHAT DO YOU WANT?

Recent Student Activities meetings have been poorly attended to say the least. And without such a group it is not correct to arbitrarily spend the remaining funds allocated to the Student Association.

Please stop by the Student Activities Office for further information. We want your suggestions as to how we can eradicate this problem. What activities do you want this quarter? Please let us know.

FACT FINDER

Do you have any questions about USFSP? Are stumped by some strange phenomena that you simply cannot find enough information on to satisfy your query? FACTFINDER is a feature of the BULLETIN that will attempt to answer any such puzzles that are deposited vocally or written in the Student Activities Office.

Our latest addition to the list of ships using Bayboro Harbor as a part-time residency is the 82 ft. ISLAND WATERS. According to Dr. Robert Smith of the Florida Institute of Oceanography, the vessel was built in Scotland (take GPX classes) during 1961-1963 and was eventually donated to the National Youth Science Foundation an educational project designed for potential and able young scientists. In exchange for other scientific assistance, the ISLAND WATERS was turned over to the State University System for oceanographic research purposes.

The vessel is currently in the process of alteration. Then, on May 1, our RENDEZVOUS will be left behind again as the ISLAND WATERS joins an eight ship operation to investigate the loop-current of the eastern Gulf of Mexico, as part of an international program SUCAR (Cooperative Investigation of the Caribbean and Adjacent Regions.) Bon Voyage, ISLAND WATERS & crew.

OUR HERITAGE

Charley Morgan's America Cup hopeful, HERITAGE, will publicly be launched in St. Petersburg from Bayboro Harbor on Saturday, May 2.

Normally, launchings are exclusive, private affairs but this special one is open to everyone due to the extensive public interest of local citizens.

HERITAGE is the first America Cup Yacht to be built in Florida, or in the South for that matter.

After launching, she will eventually sail to New England for the trials against the successful defender INTREPID and challenger VALLANT. The winner of this contest will have the right to defend the America Cup against the winner of the France vs. Australia series.

PSI CHI NOTICE

There will be a meeting of Psi Chi on Wednesday at 2:00 p.m. in Room 158-B. Anyone interested in Psychology is invited to attend.

Point to Ponder

We need not worry so much about what man descends from--it's what he descends to that shames the human race. --Quoted by Hal Boyle, AP
