### Narrative

Florida Statutes 274.05 and 274.06 provide for the disposition of items that are obsolete, or the continued use of which is uneconomical, or inefficient, or which serves no useful function. A governmental unit shall have the discretion to classify any items as such and to determine the method of disposition. Florida Statute 274.06 provides for the donation, destruction or abandonment of such property at the election of the governmental unit in the reasonable execution of their discretion. Alternative methods include offering items to other governmental units in the county or district, or to other governmental units identified by the Board or by Public Auction.

The computers to be removed from inventory are obsolete and do not have the minimum requirements to run the Windows 95 system that is required to operate existing software. The computers are being replaced with hardware purchased in Phase II of the Information Systems Plan approved by the Board.
