

Regular Meeting 10/14/99

TO: Juvenile Welfare Board Members •

FROM: James E. Mills, Executive Director 
 Patricia K. Gehant, Information Systems Manager 

Update on Year 2000 Compliance

In accordance with the Management Letter, the Board will receive a monthly update on the Y2K (Year 2000) readiness of the Juvenile Welfare Board. The JWB received the Microsoft Resource Disk that scans JWB System to determine if there are any additional fixes required to be Y2K compliant. The scanning process was initiated on October 5 and will be completed by October 30th.

The IS department will continue to monitor the status of all applications through December 1999 and forward.

Below is a summary of the areas reviewed to date.

Area	Status
49 th Street facility	Compliant
66th Street facility	All systems compliant.
Office equipment	All systems compliant
Software – Office Automation	Compliant with a fix for Windows 95, Windows 98 and Outlook.
Software – Systems	Exchange, Web, and Application Server is compliant
Software – Statistical	AMOS – Compliant SPPS and Teleform – require upgrades to be compliant. Company does not provide a fix to the problems. Upgrades will be purchased. QSR – NUD*IST – Compliant.
Software – Accounting and HR	Testing for compliance
Hardware	Desktops purchased in July 1998 are all compliant. Servers, firewall, and Cisco Router are all compliant. New computers to be purchased in July are certified by the vendor to be Y2K compliant.
Partners	Florida Power will be compliant by end of 3 rd quarter 1999
